RE: 3rd International Congress of the LDLT Study Group 2017

Dear Colleague,

I would like to personally extend an invitation to you to participate in the 3rd International Congress of the LDLT Study Group 2017 to be held October 27-28, 2017, at the Gaylord Texan Resort & Convention Center in Grapevine, Texas (near Dallas). Baylor Annette C. and Harold C. Simmons Transplant Institute is proud to partner with the Living Donor Liver Transplantation Study Group.

The Congress will consist of 1 day dedicated to lectures given by the most recognized professionals in the field of both pediatric and adult living donor liver transplantation and a very exciting second day dedicated to enhance surgical technical knowledge through interactive, moderated video presentations.

This conference will allow you and your team to exchange ideas, discuss protocols and compare surgical techniques with all of us who are dedicated to the promotion and growth of living donor liver transplant in the Western world and with the representatives of the busiest and most successful living donor liver transplant programs especially from Asia.

It is a unique opportunity to have so many and qualified experts in living donor liver transplantation in the same location.

Registration is open at: www.iLDLTdallas.com

If you have any questions or require additional conference details, please contact me at Giuliano.Testa@BSWHealth.org or Dana Holland, Managing Director for the Camenae Group, at dana@camenaegroup.com or 817-253-8620.

I very much look forward to seeing you there.

Sincerely,

Giuliano Testa, MD, FACS, MBA
